Date Issued: 19 June, 2019

CERTIFICATE OF ANALYSIS: 156380

LGC Supplement Screen

Consignment Number: post
Delivery Date: 16 May, 2019
Date Analysis Commenced: 16 May, 2019
Purchase Order Number: N/A

Product:	CLA Refine 1,000mg	Pack Size:	120 tabs
Flavour:		Programme:	Informed Sport (IS)
Batch No:	1904068	Sample Type:	Post-certification
Batch Expiry:	04/2021	LGC Reference:	1092700

The sample was analysed using documented LGC screening methods for the compounds specified within the Testing Specification: Nutritional Supplements V1.

GCMS:

None were found.

LCMS:

Sample unsuitable for the analysis of
20-norstanozolol, clomifene, stanozolol,
tamoxifen and toremifene

All other compounds: None were found.

Test results apply to the portion of product taken.
* or isomers of - as specified within the Testing Specification.

This certificate may not be reproduced, except with the prior written approval of the issuing laboratory.

19 June 2019

Elite CLA Sport, BN 1904068

Note regarding the testing of the compounds 20-norstanzolol, stanozolol, clomifene, tamoxifen and toremifene:

This product was found to continue to meet the requirements of the Informed-Sport program, by the Informed-Sport Certification Body.

On initial testing the markers for the compounds identified above could not be recovered which made the sample unsuitable for analysis at the standard reporting level. The sample was re-analysed at an increased detection level which still meets the Informed-Sport program's requirements, whereupon testing was successful and the presence of these compounds were not observed.
